SUBJECT INDEX

A

Acta geneticae medicae et gemellologiae, 469 (B. Rec'd)
ACTH (*see* Corticotropin)
Adrenal function in nephrosis, 446
Adrenalectomy, total, in treatment of essential hypertension, 542
Adrenocortical influences in essential hypertension, procedures acting on, 500
Age and sex variation in specific chronic diseases, 421
Alcoholic, treatment of, 228 (B. Rev.)
Allergy, manual for clinical, 227 (B. Rev.)
Alpha lipoprotein, 72
Anatomic factors contributing to greater consequence of atherosclerosis in men, 69
Anatomy, human, atlas of, 110 (B. Rec'd)
Androgens, effect on protein-lipid relationships of plasma, 79
Announcement of hypertension symposium, 470
Journal of Chronic Diseases, 1
Annual review of medicine, 104 (B. Rev.)
Ansolysen, 529 (*see also* Methonium compounds; Pentapyrrolidinium)
Antihypertensive drugs, 547
action of, 499
measures, suggested sequence of, 553
Antimalarial drugs, 689
Aortitis, syphilitic, pathologic criteria of, 131
Apresoline (*see* Hydralazine)
Arterial hypertension, current treatment of, 536
Arteries, coronary, extent of atherosclerosis in, by sex and age, 65
Arthralgia in SLE, 324
Arthritis, differential diagnosis of, 253
hypertrophic (*see* Osteoarthritis)
present-day management of, 253
rheumatoid (*see* Rheumatoid arthritis)
in SLE, 324
Asymptomatic essential hypertension, 554
Atherosclerosis in coronary arteries, extent of, by sex and age, 65
in domestic fowl, influence of sex on, 74
influence of sex and sex hormones upon development of, 63
observations on beginnings of, 92 (Edit.)
Atlas of human anatomy, 110 (B. Rec'd)
Atrophy, optic, primary, syphilitic, 601
Autonomic nervous system, drugs acting on in essential hypertension, 499

B

Beta lipoproteins, 72
BFP phenomenon, frequency of, 299
types of, acute and chronic, 299
validity of TPI test in recognition of, 297
reactors, chronic, etiologic background of, 302
Bibliography of internal medicine: malaria, 665
Biochemistry and physiology of the skin, 106 (B. Rev.)
Biologic false positive reactors, chronic, in serologic tests for syphilis, and systemic lupus erythematosus, 297
serologic tests for syphilis (*see* BFP phenomenon)
Biometry in collection and evaluation of medical data, some applications of, 638
Blood disorders in SLE, 328
pressure lability, relation of to prognosis in hypertensive vascular disease, 121
vessels in rheumatoid arthritis, 174
Breathing, diaphragmatic, in pulmonary emphysema, 211 (Edit.)
Bursae in rheumatoid arthritis, 173

C

Cancer of lung, 96 (Edit.), 352 (B. Rev.)
measures of risk of dying from, 644
Carcinoma, gastric, as sequel of peptic ulcer, 49
and postnecrotic cirrhosis of the liver, 286
Cardiac manifestations of essential hypertension, 556
Cardiology, preventive, rheumatic heart disease as problem of, 591
Cardiomegaly, idiopathic, 292
Cardiovascular manifestations of SLE, 329
surgery, 228 (B. Rev.)
syphilis, pathologic criteria of, 131
Care of long-term patient; summary of National Conference, 51
of sick, 695 (Edit.)
Cartilage, articular, in rheumatoid arthritis, 170
Cerebrovascular accidents in essential hypertension, 584
Changing role of chronic disease, 86 (Edit.)
Chemical factors contributing to greater consequence of atherosclerosis in men, 70
Chemotherapy of essential hypertension, 497
general considerations relative to, 510
of malaria, 690
Chorea, Sydenham's, relation to chronic rheumatic fever, 220 (Edit.)
Chronic and acute illness, total case load of, 412
disability, age distribution of, 150
disease, illness from, and its variation with age, sex, and season, with some trends, 412
changing role of, 86 (Edit.)
determination of prognosis in, as illustrated by systemic lupus erythematosus, 12
hospitals, 403
incidence of, methods of determining, 651
in industry, opportunities and problems in study of, 231
observations on beginnings of, 90 (Edit.)
Diseases, Journal of, announcement, 1
illness, age distribution of, 150
Commission on, 51
days of disability from, 416
emotional problems of, 696 (Edit.)
home care of, 346 (Edit.)
medical education concerning, 696 (Edit.)

VOL. 1 195

Chronic and acute illness—Cont'd
and medicine of tomorrow, 88 (Edit.)
natural history of, 335 (Edit.)
persons who care for, 695 (Edit.)
prospective studies of, 655
retrospective studies of, 656
rheumatic fever, potentialities for and limitations in control of by prophylactic measures, 216
rheumatoid arthritis, rehabilitation of patient with, 628
ulcerative colitis, surgical management of, 706 (Edit.)
Cirrhosis of liver, postnecrotic, 266
pathogenetic factors in, 269
Clinical allergy, a manual for, 227 (B. Rev.)
cytology using the May-Grunwald-Giemsa stained smear, 589 (B. Rev.)
trial, controlled, theory and practice, 353
Colitis, chronic ulcerative, surgical management of, 706 (Edit.)
Collagen disease caused by hydralazine, 502
Colon, its normal and abnormal physiology and therapeutics, 468 (B. Rev.)
Commission on Chronic Illness, 51
on Health Needs of the Nation, 1
Common diseases, history and conquest of, 468 (B. Rev.)
Complicated phase of essential hypertension, 472
Complications, clinical and pathologic, of coronary heart disease, 67
of peripheral vascular disease, 68
Congenital heart lesions, age and sex distribution of, 598
syphilis, 351 (B. Rev.)
Contraction, muscular, 105 (B. Rev.)
Control of tuberculosis, physician's responsibility in, 622
Controlled clinical trial, theory and practice, 353
Controls, importance of, in study of chronic illness, 658
Coronary arteries, extent of atherosclerosis in, by sex and age, 65
heart disease, clinical and pathologic complications of, 67
in young adults, multidisciplinary study, 106 (B. Rev.)
Corticotropin (ACTH) in treatment of rheumatoid arthritis, 182
of SLE, 331
Cortisone and phenylbutazone, compared in treatment of rheumatoid arthritis, 195
in treatment of Hodgkin's disease, 702 (Edit.)
of rheumatoid arthritis, 182
of SLE, 331
Cramps, muscular, 100 (Edit.)
Criteria for design of research studies on chronic disease, 224 (Edit.)
Current treatment of arterial hypertension, 536
Cytology, clinical, using May - Grunwald - Giemsa stained smear, 589 (B. Rev.)

D

Death, causes of, in hypertensive vascular disease, 40
from postnecrotic cirrhosis of liver, 285
Dermatology, tropical, and medical mycology, handbook of, 106 (B. Rev.)
Determination of prognosis in chronic disease, illustrated by systemic lupus erythematosus, 12
Diabetes mellitus mortality in continental United States—1950, 368
Diaphragmatic breathing in pulmonary emphysema, 211 (Edit.)
Dietary management of essential hypertension, 552
Diets, low-sodium, in treatment of essential hypertension, 577
Disability, chronic, age distribution of, 150
projected incidence of in the United States, 151
Disease, chronic (*see* Chronic disease)
Diseases, common, history and conquest of, 468 (B. Rev.)
Disseminated lupus erythematosus (*see* Systemic lupus erythematosus)
Donovanosis, 110 (B. Rec'd)
Duodenal ulcer (*see* Peptic ulcer)
duPont de Nemours Company, study of chronic disease in male employees of, 231
Drug therapy of essential hypertension, limitations of, 497
Drugs, antimalarial, 689
evaluation of efficacy of, 353
in treatment of essential hypertension, 578
Dysgammaglobulinemia, 308

E

Economic values of rehabilitation, 222 (Edit.)
Editorial board, Journal of Chronic Diseases, membership of, 7
Emphysema, pulmonary, diaphragmatic breathing in, 211 (Edit.)
effect of breathing 100 per cent oxygen in; correlation of clinical improvement with changes in pulmonary ventilation, 111
Encephalopathy, hypertensive, 583
Endocrine organs in rheumatoid arthritis, 176
Erythema marginatum, relation to chronic rheumatic fever, 220 (Edit.)
Essential hypertension (*see also* Hypertensive vascular disease)
announcement of symposium on, 470
asymptomatic, 554
beginnings of, some observations on, 91 (Edit.)
cardiac involvement in, treatment of, 583
manifestations of, 556
central neural manifestations of, 555
nervous system involvement in, treatment of, 583
choice of drug or procedure in, 511
comparison of surgical and medical methods of treatment of, 486
complicated and uncomplicated phase of, 582
current treatment of, 536
determination of phase of, 576
dietary management of, 552
education of patient with, 577
estimation of severity index of, 539
evaluation of patient with, 575

Essential hypertension—Cont'd
general principles of treatment of, 577
Grob's method of treatment of, 546
McMichael and Murphy's method of treatment of, 527
management of, 563
mild, management of, 536
nephrosclerosis in, 557
Page's method of treatment of, 536
pentapyrrolidinium in treatment of, 523
primary, management of patient with, 546, 574
results of and indications for splanchnicectomy in, 477
retinopathy in, 556
Schroeder's method of treatment of, 497, 510
selection of cases for treatment, 564
of drugs for treatment of, 566
severe and malignant, methonium treatment of, 527
with progressive cardiovascular disease, management of, 538
Smirk and McQueen's method of treatment of, 516, 525
Smithwick's method of treatment of, 477, 494
symptomatic, 555
therapy with modern drugs and its limits, 497
treatment of, 516
of complicated phase of, 582
panel discussion of, 516
by surgical sympathectomy, 553
of uncomplicated phase of, 582
Wertheim and Deming's method of treatment of, 574
Wilkin's method of treatment of, 563
Estrogen, effect of administration of, on lipid composition of blood and development of atherosclerosis, 76
Etiology of nongonococcal (nonspecific) urethritis, 381
Eye in rheumatoid arthritis, 175

F

Fowl, domestic, atherosclerosis in, influence of sex on, 74

G

Ganglion-blocking drugs in treatment of essential hypertension, 499, 569
Gastric carcinoma as sequel of peptic ulcer, 49
ulcer (*see* Peptic ulcer)
Gastrointestinal manifestations of SLE, 329
Genetica medica, 469 (B. Rec'd)
Genitourinary manifestations of SLE, 330
Geriatric medicine, 103 (B. Rev.)
Gold therapy in rheumatoid arthritis, 196
Gonadal hormones in man, effect of administration on atherosclerosis, 78
Gout, 338 (Edit.)
Granuloma inguinale, 110 (B. Rec'd)
venereum, 110 (B. Rec'd)
Grob's method of treatment of essential hypertension, 546

H

Handbook of medical treatment, 469 (B. Rec'd)
of tropical dermatology and medical mycology, 106 (B. Rev.)
Heart disease, 350 (B. Rev.)
coronary, clinical and pathologic complications of, 67
and obesity, 456 (Edit.)
rheumatic, delayed appearance of, 218 (Edit.)
as problem of preventive cardiology, 591
valvular, recurrence of rheumatic activity related to development of, 594
rheumatic, 596
in rheumatoid arthritis, 173
Hemagglutination test in rheumatoid arthritis, 178
Hematologic findings in SLE, 328
Hemorrhage in peptic ulcer, 46
Hepatitis, infectious, followed by postnecrotic cirrhosis of the liver, 270
Hexamethonium in treatment of essential hypertension, 569, 579
History, natural, of hypertensive vascular disease, 33
and conquest of common diseases, 468 (B. Rev.)
Hodgkin's disease, early diagnosis of, 698 (Edit.)
local therapy of, 699 (Edit.)
management of patient with, 698 (Edit.)
radiotherapy of, 699 (Edit.)
treatment with cortisone, 702 (Edit.)
with nitrogen mustard, 700 (Edit.)
with triethylene melamine, 701 (Edit.)
Home care of chronic illness, 346 (Edit.)
of long-term patient, 392
Homes for aged, projected number of patients in, 154
Homologous serum jaundice followed by postnecrotic cirrhosis of the liver, 270
Hormones, steroid, in treatment of SLE, 331
sex, influence upon development of atherosclerosis and upon lipoproteins of plasma, 63
Hospitalization of patients with chronic illness, 428
Hospitals, general, care of long-term patients in, 402
Hydralazine, collagen disease caused by, 502
effect on blood pressure, 550
indications and contraindications for, 550
intolerance to, 512
mechanism of action of, 550
properties other than cardiovascular, summary of, 501
results with long-term use in essential hypertension, 580
route and dosage of, 550
side effects of, 550
in treatment of essential hypertension, 568
1-Hydrazinophthalazine (*see* Hydralazine)
Hydrocortisone acetate, intra-articular injection in rheumatoid arthritis, 188
in treatment of rheumatoid arthritis, 182

VOL. 1 195

Hypertension, criteria of, 34
essential (*see* Essential hypertension; Hypertensive vascular disease)
malignant, 472
primary (*see* Essential hypertension)
secondary, 35
treatment of, 516
"what do you do for it?" 476
Hypertensive vascular disease, causes of death in, 40
complications of, 37, 40
description and natural history, 33
relation of blood pressure lability to prognosis, 121
results of, and indications for splanchnicectomy, 477
survival after onset of, 37
therapeutic principles and objectives, 472
therapy with modern drugs and its limits, 497
uncomplicated phase of, 39
Hypertrophic arthritis (*see* Osteoarthritis)

I

Idiopathic cardiomegaly, 292
Illness, chronic (*see also* Chronic disease; Chronic illness)
age distribution of, 150
variation with age, sex, and season, with some trends, 412
long-term, over-all picture of, 149
measurement of risk of, 642
Industry, opportunities and problems in study of chronic disease in, 231
periodic physical examination in, 231
Infectious hepatitis followed by postnecrotic cirrhosis of liver, 270
Influence of sex and sex hormones upon development of atherosclerosis and lipoproteins of plasma, 63
Institutional care of chronic illness, percentage of distribution of patients in, 153
Institutions, care of long-term patients in, 401
Internal medicine, bibliography of: malaria, 665
principles of, 710 (B. Rev.)

J

Jaundice, homologous serum, followed by postnecrotic cirrhosis of liver, 270
Joint Committee on Chronic Illness, 51
structures in rheumatoid arthritis, 169
Journal of Chronic Diseases, announcement, 1
policy of, 7, 10

L

Lability of blood pressure, relation to prognosis in hypertensive vascular disease, 121
L.E. tests, 331
Life, duration of, in patients with hypertensive vascular disease, 39
table, in determination of prognosis in chronic disease, 15
method of calculation of, 27
Lipoproteins of plasma, influence of sex and sex hormones upon, 63
Liver, cirrhosis of, postnecrotic, 266
Long-range results of medical treatment of peptic ulcer, 45
Long-term illness, over-all picture of, 149
patient, care of, summary of National Conference, 51
experience in providing care for, and light thrown on additional research needed, 392
with prolonged illness, comments on, 465 (Edit.)
studies of chronic disease, features of data from, 13
Lung cancer, 96 (Edit.), 352 (B. Rev.)
and smoking, 96 (Edit.)
Lupus diathesis, 321
erythematosus, systemic (*see* Systemic lupus erythematosus)

M

McMichael and Murphy's method of treatment of essential hypertension, 527
Magnuson Commission, 1
Malaria, a bibliography of internal medicine, 665
chemotherapeutic suppression and prophylaxis of, 690
historical data of, 675
mosquitoes and, 681
parasite of, 667-671
pathology of, 675
prevention of, 685
therapy of syphilitic primary optic atrophy, 607
treatment of, 687
Malignant hypertension, 472, 544, 559
methonium treatment of, 527, 533
Management of essential hypertension, 546, 563, 574
Manual for clinical allergy, 227 (B. Rev.)
Medical data, some applications of biometry in collection and evaluation of, 638
management of the long-term respirator patient, 160
treatment, handbook of, 469 (B. Rec'd)
of peptic ulcer, results of, 43
Medicine, annual review of, 104 (B. Rev.)
geriatric, 103 (B. Rev.)
internal, principles of, 710 (B. Rev.)
of tomorrow and chronic illness, 88 (Edit.)
Mental disorders, beginnings of, observations on, 93 (Edit.)
institutions, projected number of patients in, 154
Methonium compounds, effect on blood pressure, 548
dosage of, 548
ganglionic blockade by, 512
indications and contraindications for, 548
initial dosage and dosage increments of in essential hypertension, 522
mechanism of action of, 548
side effects of, 548
treatment of severe malignant hypertension, 527
Mitral stenosis, operative treatment of, 592
postcommissurotomy syndrome after operation for, 220 (Edit.)

Mortality from diabetes mellitus in continental United States—1950, 368
Mosquitoes and malaria, 681
Muscular contraction, 105 (B. Rev.)
cramps, 100 (Edit.)
Mycology, medical, and tropical dermatology, handbook of, 106 (B. Rev.)

N

National Conference on care of long-term patient, March, 1954, summary of, 51
Natural history of chronic illness, 335 (Edit.)
of hypertensive vascular disease, 33
of rheumatoid arthritis, 257
of systemic lupus erythematosus, approach to its study through chronic biologic false positive reactors, 297, 312
of untreated syphilis, 127
Negro male, untreated syphilis in, pathologic findings in syphilitic and nonsyphilitic patients, 127
Nephritis, experimental, 444
Nephrosclerosis in essential hypertension, 557
Nephrosis, adrenal function in, 446
Nephrotic syndrome, 442
management of, 448
Nervous system in rheumatoid arthritis, 175
Neurologic manifestations of essential hypertension, 55
of SLE, 330
Nitrogen mustard in treatment of Hodgkin's disease, 700 (Edit.)
Nodules, subcutaneous, in rheumatoid arthritis, 171
Nongonococcal (nonspecific) urethritis, etiology of, 381
Nursing homes, projected estimate of number of patients in, 154

O

Obesity, 105 (B. Rev.)
and heart disease, 456 (Edit.)
Optic atrophy, primary, syphilitic, malaria therapy of, 607
outcome of various methods of treatment in, 611
treated, some observations on course of, 601
Osteoarthritis (*see also* Arthritis)
some observations on beginnings of, 90 (Edit.)
Oxygen, effect of breathing 100 per cent in pulmonary emphysema; correlation of clinical improvement with changes in pulmonary ventilation, 111

P

Page's method of treatment of essential hypertension, 536
Pathology of trauma, 230 (B. Rev.)
Patient with prolonged illness, comments on, 465 (Edit.)
Penicillin in prophylaxis of rheumatic fever, 593
Pentapyrrolidinium in treatment of essential hypertension, 523, 539, 569, 579
(*see also* Methonium compounds)
Pentolinium and hexamethonium compared in treatment of essential hypertension, 539
Peptic ulcer, gastric carcinoma following, 49
hemorrhage in, 46
pyloric obstruction in, 49
recurrence of, 45
results of medical treatment of, 43
Periodic physical examination in industry, 231
Peripheral vascular disease, clinical and pathologic complications of, 68
Pharmacology in medicine, 589 (B. Rev.)
Phenylbutazone and cortisone compared in treatment of rheumatoid arthritis, 195
deaths from, 195
toxicity of, 193
in treatment of rheumatoid arthritis, 191
Physician's responsibility in tuberculosis control, 622
Physiology and biochemistry of skin, 108 (B. Rev.)
of colon, normal and abnormal, 468 (B. Rev.)
Plasma lipoproteins, influence of sex and sex hormones upon, 63
Poliomyelitis, severe, respirator management of, 160
Polycythemia vera, management of, 462 (Edit.)
Postcommissurotomy syndrome after operation for mitral stenosis, 220 (Edit.)
Postnecrotic cirrhosis of liver, 266
and carcinoma, 286
cause of death in, 285
and chronic alcoholism, 271
complications of, 282
and dietary deficiency, 271
following infectious hepatitis or homologous serum jaundice, 270
laboratory findings in, 283
prognosis in, 284
symptoms of, 273
Pregnancy in SLE, 330
President's Commission on Health Needs of Nation, 1
Preventive cardiology, rheumatic heart disease as problem of, 591
Primary essential hypertension, management of patient with, 546 (*see also* Essential hypertension)
optic atrophy, syphilitic, 601 (*see also* Optic)
Principles of internal medicine, 710 (B. Rev.)
Prognosis in chronic disease, determination of, illustrated by systemic lupus erythematosus, 12
in hypertensive vascular disease related to lability of blood pressure, 121
Prolonged illness, comments on patients with, 465 (Edit.)
Prophylaxis of chronic rheumatic fever, potentialities for and limitations of, 216 (Edit.)
Prospective studies of chronic illness, 655
Protoveratrine in treatment of essential hypertension, 499
Psychiatric manifestations of SLE, 330
Public health physician, responsibility in tuberculosis control, 624
Pulmonary emphysema, diaphragmatic breathing in, 211 (Edit.)

VOL
1
195

Pulmonary emphysema—Cont'd
ventilation, changes in, correlated with clinical improvement in pulmonary emphysema after breathing 100 per cent oxygen, 111
Pyloric obstruction in peptic ulcer, 49

R

Radiotherapy of Hodgkin's disease, 699 (Edit.)
Random sampling in evaluation of drugs, 356
Rauwolfia, dose of, 547
effect on blood pressure, 547
indications and contraindications for, 547
mechanism of action of, 547
serpentina (*see* Reserpine)
side effects of, 547
in treatment of essential hypertension, 567, 580
Rehabilitation in chronic rheumatoid arthritis, results of, 628, 636
economic values of, 222 (Edit.)
of long-term patient, 399
Renal involvement in essential hypertension, treatment of, 585
in SLE, 329
Research studies on chronic disease, criteria for design of, 224 (Edit.)
Reserpine, action on mid-brain, 499
hypothalamic "blockade" by, 512
(serpasil) and other alkaloids of Rauwolfia serpentina, chemistry, pharmacology, and clinical applications, 229 (B. Rev.)
in treatment of essential hypertension, 540
Respirator patient, long-term, medical management of, 160
Respiratory manifestations of SLE, 325
Retinopathy in essential hypertension, 556
Retrospective studies of chronic illness, 656
Rheumatic activity, recurrence of, related to development of valvular heart disease, 594
fever, chronic, potentialities for and limitations in control of, by prophylactic measures, 216 (Edit.)
prophylaxis with penicillin, 593
susceptibility to recurrences of, 217 (Edit.)
heart disease, delayed appearance of, 218 (Edit.)
as problem of preventive cardiology, 591
valvular heart disease, 596
type, sex, and age distribution of, 597-598
Rheumatoid arthritis, advantages and disadvantages of standard therapies advocated for, 262
chronic, rehabilitation of patient with, 628
collagen disease simulating, caused by hydralazine, 502
local treatment of, by intra-articular injection of hydrocortisone acetate, 188
mistaken diagnoses in, 256
natural history of, 257
pathology of, 168
present-day management of, 253
review of recent advances in knowledge concerning pathology, diagnosis, and treatment, 168
serologic tests for, 177
Rhumatoid arthritis—Cont'd
treatment of, 182
with gold, 196
with phenylbutazone, 191

S

Sampling, random, in evaluation of drugs, 356
some problems of, 647
Sanatorium physician, responsibility of, in tuberculosis control, 625
Schroeder's method of treatment of essential hypertension, 497
Seasonal variation in specific chronic diseases, 422
Serologic tests for rheumatoid arthritis, 177
Serpasil (*see* Reserpine)
Sex and age variation in specific chronic diseases, 421
and sex hormones, influence upon development of atherosclerosis and lipoproteins of plasma, 63
Sick, the, those who care for, 695 (Edit.)
Skin, physiology and biochemistry of, 108 (B. Rev.)
SLE (*see* Systemic lupus erythematosus)
Smirk and McQueen's method of treatment of essential hypertension, 516
Smithwick's method of treatment of essential hypertension, 477
Smoking and lung cancer, 96 (Edit.)
Sodium restriction in treatment of essential hypertension, 577
Spatial vectorcardiography, 350 (B. Rev.)
Splanchnicectomy, results and indications in hypertensive vascular disease, 477
Stenosis, mitral (*see* Mitral stenosis)
Steroid hormones in treatment of SLE, 331
Subcutaneous nodules in rheumatoid arthritis, 171
Surgeon, responsibility of, in tuberculosis control, 626
Surgery, cardiovascular, 228 (B. Rev.)
in SLE, 330
in treatment of essential hypertension, 578
Surgical management of chronic ulcerative colitis, 706 (Edit.)
treatment of essential hypertension by splanchnicectomy, 477
Sydenham's chorea, relation of to chronic rheumatic fever, 220 (Edit.)
Sympathectomy (*see also* Splanchnicectomy)
surgical, in treatment of essential hypertension, 553
techniques of, 480-481
Symposium on management of patients with primary (essential) hypertension, 471-588
Symptomatic essential hypertension, 555
Synovial membranes in rheumatoid arthritis, 169
Syphilis, cardiovascular, pathologic criteria of, 131
congenital, 351 (B. Rev.)
untreated, in male Negro; pathologic findings in syphilitic and nonsyphilitic patients, 127
natural history of, 127

Syphilitic primary optic atrophy, malaria therapy of, 607
treated, some observations on course of, 601
Systemic lupus erythematosus, arthritis and arthralgias in, 324
blood disorders in, 328
clinical manifestations of, 303, 317
diagnostic criteria of, 17
as illustration in determination of prognosis in chronic disease, 12
modern concepts of, review of 126 cases, 317
natural history of, approach to study through chronic biologic false positive reactors, 297
principles of treatment of, 331
respiratory manifestations of, 325
sex and race distribution of, 18
survivorship after diagnosis of, 23

T

Tendons in rheumatoid arthritis, 173
Therapeutic principles and objectives in hypertensive vascular disease, 472
TPI test, reproducibility of, 298
specificity of, 298
validity of, in recognition of BFP phenomenon, 297
Trauma, pathology of, 230 (B. Rev.)
Treatment, medical, of peptic ulcer, results of, 43
of the alcoholic, 228 (B. Rev.)
Treponemal immobilization test (*see* TPI test)
Treponematoses, world problem, 110 (B. Rec'd)
Triethylene melamine in treatment of Hodgkin's disease, 701 (Edit.)
Tropical dermatology and medical mycology, handbook of, 106 (B. Rev.)
Tuberculosis control, physician's responsibility in, 622

U

Ulcer, peptic, results of medical treatment of, 43
Ulcerative colitis, chronic, surgical management of, 706 (Edit.)
Uncomplicated hypertensive phase of essential hypertension, 472
United States, continental, diabetes mellitus mortality in—1950, 368
Untreated syphilis in the male Negro, pathologic findings in syphilitic and nonsyphilitic patients, 127
Urethritis, nonspecific (nongonococcal), 381

V

Vascular disease, hypertension, description and natural history, 33
smooth muscle, drugs acting on, in essential hypertension, 500
Valvular heart disease, rheumatic, 596
Vectorcardiography, spatial, 350 (B. Rev.)
Ventilation, pulmonary, changes in, correlation of clinical improvement with, in pulmonary emphysema after breathing 100 per cent oxygen, 111
Veratrum alkaloids in treatment of essential hypertension, 542, 552, 568, 581
Veriloids (*see* Veratrum alkaloids)
Visceral granulomata in rheumatoid arthritis, 176
Visual efficiency, measurements of, 605

W

Wertheim and Deming's method of treatment of essential hypertension, 574
Wilkin's method of treatment of essential hypertension, 563
